The Company

MH / 01 / THE COMPANY
MH CONSTRUCTION / COMPANY PROFILE
Built to follow through.
PASCO, WASHINGTON
MH Construction coordinates commercial improvements, public facilities and renovation work. At Volm Companies in Pasco, facade and frontage improvements were sequenced around an operating distribution and manufacturing facility. At Franklin County Morgue, project records document coordination of utilities, concrete and building systems. In Zillah, separate Station 10 administration and renovation projects required distinct construction records and site coordination.

Capabilities

MH / 02 / CAPABILITIES

SCOPES SHAPED BY THE SITE.

COMMERCIAL TENANT IMPROVEMENTS

Facade, storefront, signage and right-of-way improvements at Volm Companies.

PUBLIC FACILITIES

New construction and multidisciplinary coordination for the 1,560-square-foot Franklin County Morgue addition.

RENOVATION AND CONSTRUCTION COORDINATION

Separate administration-building and fire-station renovation projects at Station 10 in Zillah, with project submittals and construction access planned with the owner and architect.

Volm Companies

MH / 03 / VOLM COMPANIES
BUSINESS KEEPS MOVING.
ACTIVE-SITE TENANT IMPROVEMENT / PASCO, WA
An exterior refresh. An operating business.
At Volm Companies' Pasco distribution and manufacturing facility, MH Construction delivered exterior facade updates, right-of-way improvements, storefront integration and signage coordination while supporting continued facility access. The work required deliberate sequencing around personnel and logistics routes, city permit closeout and the owner's ongoing operations.

Volm: The Finished Work

MH / 03 / VOLM / THE FINISHED WORK

A unified face for a working facility.

FRONTAGE / ENTRANCE / IDENTITY

The completed frontage brings together exterior finishes, storefront glazing, signage and site improvements. Project photographs show the entrance and office frontage alongside the larger industrial building.

Franklin County

MH / 04 / FRANKLIN COUNTY
ESSENTIAL WORK. PURPOSE-BUILT.
CORONER'S OFFICE MORGUE / PASCO, WA
1,560 SQUARE FEET
MUNICIPAL NEW CONSTRUCTION

MH Construction's Franklin County Morgue project involved new construction of a 1,560-square-foot building addition. Project records document field coordination from underground utilities through building systems and finishes, including mechanical scope walks, concrete-pour planning and exterior drainage interfaces. The photographs show the building frontage, service-side exterior and county identification.

Industrial Environments

MH / 05 / INDUSTRIAL ENVIRONMENTS
DARIGOLD PASCO PRODUCTION FACILITY
A different scale of environment.
MH Construction's October 2025 field photographs document the Pasco facility's entrance, frontage and loading areas. Entrance glazing, loading doors and paved circulation give context to the scale of this industrial setting.

The People

MH / 06 / THE PEOPLE
ACCOUNTABILITY AND RESPONSIBILITIES.
Jeremy Thamert
Chief Executive Officer and Chief Operations Officer
Beth Carney
General Manager and HR & Finance Director
Project management and field supervision
Executive and administrative leadership connect planning and project delivery. On individual projects, project managers and superintendents coordinate assigned construction responsibilities, field work and project records.

The Delivery Standard

MH / 07 / PROJECT COORDINATION
FROM THE PLAN TO THE FIELD.
SCOPE
Identify the work and the interfaces between trades.
ACCESS
Coordinate construction staging with the site and the owner.
COMMUNICATION
Keep project questions, submittals and responsibilities connected to the project record.
THE RECORD
Connect construction observations, changes and closeout information through the delivery process.
